Transfer my movie film	3 inch Reel number of feet	Minutes to transfer	Transfer to				Total Transfer Fee

A test transfer begins with a check for bad splices and repaired if necessary. We clean your film to remove any dust and dirt. The cleaning process also serves as a film lubricant allowing for ease of film movement during capture. Your film is then transferred frame by frame to our computer based editing system. For this test transfer we white balance the video, perform any color correction as required, edit out any clear or black footage. We insert a background music track. The digital video file is then uploaded to our icloud dropbox drive. You will be emailed a link to watch or download the video. If you decide on using Digital Express to transfer your remaining movie films we will include this free test transfer film with the rest of your films at no additional cost if you do so within 30 days from the date we upload your digital video file.

Shipping & Handling Charge
<b>Grand Total Price</b>
